Belong with
purpose

If you aspire to help create and innovate whilst developing yourself in a challenging team setting, Saab may well have the perfect conditions for you to grow. We pride ourselves on a nurturing environment, where everyone is different, yet we share the same goal – to help protect people.

Saab is a large employer for engineers in Jönköping, and we are always looking for new talents!

Explore your potential, find your edge at saab.com/career

HI TECH – by students for students

HI TECH is the student association for all those who study at Jönköping School of Engineering. The association has been working to promote the interests of students for more than 30 years.

Our work includes arranging joint activities, events, pub nights, and kick-offs – many of the fun events that contribute to a more enjoyable social life for students. HI TECH also works to promote student influence and educational scrutiny at, and in conjunction with, Jönköping School of Engineering.

HI TECH is a lot more than just board meetings. It's an association in which many students are involved in some form, such as via committees, projects, and events. HI TECH is an association that is full of opportunities to improve the quality of student life at the School of Engineering.

WE CREATE OPPORTUNITIES FOR YOU!

One of our most important roles is to ensure that you are provided with the best possible conditions in order to succeed – both during your time studying with us and in the future. We contribute to the shaping of your working environment, for example, by ensuring that the premises in which you study are pleasant to work in, that you may work in the ideal study climate, and that the courses offered meet your expectations. We also help students integrate with business, including by arranging Karriärum each year. This provides an opportunity for all students to network, create contacts for future employment, or discover internships or a company with which to undertake their degree project.

Börja din resa

Idag är vår anläggning i Hillerstorp ett högteknologiskt center med en högautomatiserad produktion i världsklass. Här arbetar ingenjörer, programmerare och maskinoperatörer från ett stort antal länder. För den som tycker om att utvecklas och har det rätta drivet, finns det alla möjligheter till en lång och spännande karriär hos oss på Thule Group.

Vi har ett nära samarbete med ett flertal högskolor och universitet. För de studenter som gör sitt examensjobb eller praktik hos oss, kan vi erbjuda boende i nya, fräscha lägenheter och en aktiv fritid med natur och träningsmöjligheter runt hörnet.

HI TECH Committees

HIKE works with the social aspects of studying, including both small and large-scale events that are held throughout the year, ensuring that the time you spend studying is brimming with fun activities. With HIKE, you can go on a ski trip or join a spring or autumn getaway. HIKE also arranges dodgeball tournaments, the HIKE-mile, and other events throughout the year. Following each kick-off, a Syjunta (Sewing Circle) is organized where you can rework your overall to fit you perfectly.

HI LIFE

HI LIFE is the 'festmästeri' of HI TECH, also more known as the 'sexmästeri'. HI LIFE is in charge of organizing social activities throughout the year to guarantee that students at Jönköping School of Engineering have a good time in addition to their studies. They plan and arrange the autumn and spring kick-off events and organize other events such as sittings and HI CAPS. HI LIFE is also involved in our student club, Akademien.

Jönköping School of Engineering attracts students from all around the world. HINT helps the international and Swedish students integrate and ensures that everybody feels welcome. HINT arranges a variety of events, from waffle nights and pub crawls to different tournaments and competitions. The Head of HINT oversees the application process for the 'study abroad points' and stays in touch with the International Office.

HI EDUCATION is HI TECH's education committee, and it serves as a voice for the students in order to improve educational quality. They develop educational programs, ensure that all staff adhere to high standards, and supervise the course developers chosen from each class. HI EDUCATION holds regular meetings with the School of Engineering, the Student Union, and the people responsible for educational programs.

HI TECH Work Groups

HI TECH SOCIAL

HI TECH SOCIAL exists to promote projects and distribute information from HI TECH and other committees to the students at Jönköping School of Engineering. HI TECH SOCIAL also advises other committees and workgroups on their visual content, takes group portraits for the association, and photographs events.

HI TECH AFFAIRS

The primary responsibility of HI TECH AFFAIRS is to maintain ties with HI TECH's sponsors which includes forming new partnerships with external companies and associations. HI TECH AFFAIRS also handles, in collaboration with the School of Engineering, the organization of Karriärsum and Xjobbsmässan.

HI TECH Board

The HI TECH Board consists of the Heads for each committee and work group, the President and Vice President, Treasurer, IT Manager and Internal Organizer.

HI TECH EVENT

HI TECH EVENT is a work group responsible for planning and arranging several recurring events throughout the year. HI TECH EVENT plans and arranges the HI TECH GALA, engineers' dinner, welcome dinner during kick-off, graduation day and banquet.
