

MÄLARDALENS

STUDENTKÅR

WE CARE ABOUT YOUR STUDENT LIFE, DO YOU?

The student union life enriches your time as a student

Mälardalen Student Union is the student union for you who is studying at Mälardalen University. The bigger the student union, the greater the opportunity to make an impact, so be sure to join. We are strong together!

Mälardalen Student Union works for equality and everyone's right to inclusion. Fair treatment and assessment, and work to raise awareness of your responsibility for yourself and your own actions are other key elements of the values Mälardalen Student Union stands for. We support the UN global goals, because sustainability and the environment are important and a natural part of the student union's work.

As a member of the student union, you will enjoy several benefits and discounts; for example lower ticket prices to events, and discounts on drinks, coffee and lunch at the student union house. And those who have just moved in and registered in Eskilstuna get a bicycle if they sign up for a three-year membership in the student union. As a member of the student union, your student life will simply be richer!

THE GLOBAL GOALS

G6 – the new student union house in Västerås!

In Västerås, the student union house has undergone a transformation – the pub and the new hall have been refurbished, and the icing on the cake is a new logo. So we give you a warm welcome to café and restaurant G6, pub G6 and club G6! We are also planning to start student union activities in Eskilstuna, with café operations and other events, and eventually we are hoping for our own student union house!

Högvarv – the fair for business networking

Every year, Mälardalen Student Union arranges Högvarv – a job fair that provides students with a place to network with employers. Högvarv is visited by businesses looking for new employees, summer workers, trainees or thesis projects. Some just want to introduce their company. Visit the fair to be part of exhibitions, food and mingling, new contacts and lectures!

VAR MED OCH BYGG FRAMTIDEN MED OSS!

Med fokus på hållbarhet och utveckling bygger vi tillsammans framtidens samhälle. Vill du vara en del av ett företag med många spännande projekt på gång inom bygg- och installationssektorn?

Vi är alltid intresserade av nya och engagerade medarbetare!

Kadesjös

Be part of a community

The rookie period is the first few weeks of every term, when new students have the opportunity to really get to know the student union and other students. Life is a party during the rookie period! There are parties in the union houses, and line associations organize different events ranging from game nights to line association pubs in the student union houses with diverse themes, all to make sure the students become part of the community.

In addition to line associations, there are also student associations at the university. The student associations are not linked to specific programs, but are open to everyone. Some organize sport activities, others arrange parties, and some work on providing information about important topics. If you're unable to find an association relevant to your interests, you can always start a new one!

Tip!

As a rookie you can get help from the fadders from your line association. They know important stuff like where you can find the cheapest lunch or how to get your MDH card.

The student union – more than just parties

It's important that all students at Mälardalen University get good education and are able to compete on the labor market. Ensuring high quality in your education is therefore an important part of the student union's work. By being a member of the student union, you get greater student influence. All members are welcome to the student union's Council meetings, which is the student union's highest decision-making body. By voting, you can show which issues you want the student union to focus on. If you choose to become a student representative, as a member you will also receive payment for your commitment!

The overall – your trustworthy companion

The overall is a symbol of the student life. You wear it to our events, and other students may then easily recognize what you are studying or where you come from. Don't machine wash the overall, it carries all of your good and not so good memories. Only clean it if you're wearing it, for example when taking a swim. Place the program patch close to your heart. All associations have different rules for e.g. where the name should be placed, check your association for details. On our website you can read about which parts of the overall that should be exchanged with whom.

PSST! The line associations organize joint study evenings to make exams a breeze.
