

Industriservice &
Licenssvetsning AB

LARGE RESOURCES
SOLID EXPERTISE
EXTENSIVE EXPERIENCE

TOGETHER, WE CREATE GREAT CUSTOMER VALUE

Industriservice & Licenssvetsning i Trelleborg AB and Licenssvetsning & Industriunderhåll Pershult AB have had a close collaboration for many years, and we are now going to deepen it further. By working together, we can take on really large projects, making it easy for our customers by offering all the necessary expertise under one roof. Simply put, we are the only partner they need.

Our strength is that we can manage everything in a project, from design and manufacturing to production, as we hold all the required licenses. We also have an

incredibly broad network, which allows us to quickly gather a large number of skilled workers from all professions for a project. As a customer, you can choose the expertise you need, as flexibility is another advantage of working with us.

We, Jonas and Robert, are the ones running these companies. Our paths once crossed at Perstorp AB, and since then, we've always gotten along very well. Our close and good relationship also provides security for our customers, who can count on a stable partner delivering high-quality work.

OUR RELIABLE SUBCONTRACTORS

For us, it is crucial to have reliable subcontractors in both Estonia and Slovakia to deliver high-quality services and products. A well-functioning collaboration with these subcontractors is important to ensure successful projects and strengthen long-term relationships.

"As the subcontractor to Industriservice and Licenssvetsning, we have developed a strong and collaborative partnership. Our partnership is built on mutual trust and a commitment to delivering services with the highest quality in the industrial sector. Working with such partners has been mutually beneficial.

It allows us to perform our capacities and specialized skills in larger projects. Besides that, we can offer a wider range of our services through this collaboration. Also, such partnership gave us an opportunity to share knowledge and improve professional growth for both parties.

We are proud to have a significant role in supporting and getting the success of Industriservice and Licenssvetsning, as well as Licenssvetsning and Industriunderhåll in Pershult.

The services that we mainly performed during the partnership are related to installation of metal structures, welding, and demolition. The certificates of our company are also attached."

"We are a trusted partner for industrial projects across Europe, specializing in steel construction, welding, and power plant maintenance. With over 150 skilled professionals, we deliver high-quality results with a strong focus on safety, professionalism, and efficiency. Our team holds ISO 9001, 14001, and 45001 certifications, ensuring safety, environmental responsibility, and top-notch quality in every project. We especially value our close collaboration with Licenssvets och Industriunderhåll in Pershult and Industriservice and Licenssvetsning – a highly appreciated partner in many of our projects.

Here are some of our successful projects:

- **Germany:** Specialized steelwork at a major industrial plant.
- **Austria:** Power plant maintenance and optimization.
- **Netherlands:** Precision welding for a large-scale refinery upgrade.
- **Sweden:** Complex infrastructure projects in Oulu and Husum for Metsä.
- **Slovakia:** Industrial partnership with Remesli Strojal s.r.o.

We look forward to more successful collaborations and continuing to deliver top quality in all our projects!"

OUR SERVICES

PIPE WELDING AND PIPE INSTALLATION

We offer specialized welding and installation of piping systems for various industrial projects. Our experienced welders ensure durable and safe solutions, regardless of project size.

STEEL STRUCTURE MANUFACTURING

We design and manufacture custom steel structures for buildings, facilities, and machinery installations, with a focus on quality and durability.

MACHINERY RELOCATION, BOTH WITHIN SWEDEN AND ABROAD

We handle all aspects of machinery relocation, from dismantling and transport to installation, both nationally and internationally. Our team ensures a smooth and safe relocation process.

MECHANICS

Our skilled mechanics are experts in performing maintenance and repairs on industrial machinery and equipment, helping keep production running without interruptions.

ELECTRICIANS

Our certified electricians provide installation, service, and troubleshooting of electrical systems in industrial environments, adhering to the highest safety standards.

WE ARE VERY PROUD TO SAY THAT WE CAN TAKE ON JOBS IN NORWAY.

With our registered company and employed staff, we take on projects in Norway that comply with Norwegian standards and laws.

OUR PROJECTS

The projects we carry out require substantial resources, both in terms of personnel and equipment. It's essential to stay at the forefront in all areas to meet our customers' expectations. For each new project, we tailor a team that is entirely customized based on the required resources.

EXAMPLES OF PROJECTS WE'VE COMPLETED:

- Relocation of production lines from Manchester to the Czech Republic
- Relocation of Trelleborg's hose factory
- New construction of TMP Factory at Perstorp AB
- Electrical work on the Revolt Northvolt project
- Construction of cooling system, Recoverhallen, Uppsala
- Steel frame for Kviberg Park's ice and sports hall
- Various piping and mechanical work at Nymölla, Mörrum, Husum Mönsterås, Billerud, and Hyltebruk
- Complete piping work at Cinis Fertilizer

SVETS • VERKTYG • SKRUV & BULT

I vår butik hittar ni alla industriförnödenheter ni kan tänkas behöva. Vi säljer industrimaskiner av märken som Milwaukee, Metabo och Atlas Copco, svetsmaskiner från ESAB, Kemppi och Fronius. Dessutom har vi ett stort utbud av verktyg och andra tillbehör.

Vi utför även reparationer främst av svetsmaskiner och slangpaket.

**Öppet
vardagar
07-16**

Industri – lösningar för process-, gruv och verkstadsindustri

Inom industrin måste flöden och styrning fungera, i tuffa miljöer med snabbt tempo. Samtidigt måste det finnas möjlighet till flexibilitet. Vi har produkterna, tillsammans med stöd och smarta lösningar!
