

HI TECH

– by students for students

HI TECH – by students for students

HI TECH is the student association at Jönköping School of Engineering, dedicated to promoting students' interests for over thirty years. It organizes social events like activities, parties, and pub nights to enhance the student experience. Beyond fun events, HI TECH also advocates for student influence and ensures the quality of education at the school.

More than just meetings, HI TECH offers various opportunities for students to engage through committees, projects, and events. The association strives to improve student life daily.

HI TECH SOCIAL

Manages the social media, marketing, and notice boards for HI TECH, promoting projects and distributing information. They also assist other committees with graphic design and event photography/filming.

HI TECH EVENT

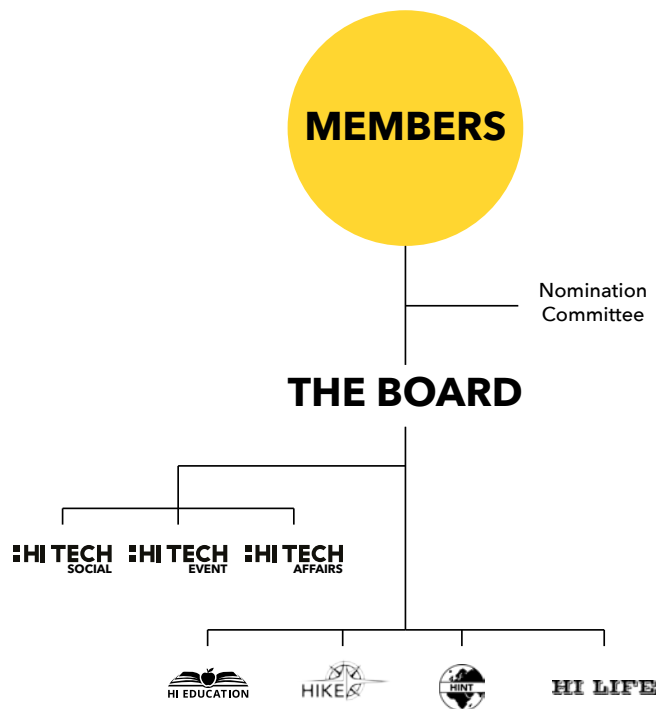

Organizes recurring events like the HI TECH GALA, Engineers Dinner, kick-off dinners, graduation day, and the banquet.

HI TECH AFFAIRS

Builds and maintains relationships with sponsors, organizes partnerships with external companies, and manages communication for collaborations. They also help organize KARRIÄRUM and Xjobbsmässan.

CREATING OPPORTUNITIES FOR YOU

HI TECH is committed to providing students with the best possible conditions for success. This includes creating a conducive study environment and ensuring that courses meet expectations. We also facilitate networking and career-building through events like Karriärum, helping students connect with businesses and secure internships or projects for their degree work.

Build the future of
Construction Tech.

HI TECH Committees

Organizes both large and small social events, such as ski trips, seasonal getaways, and smaller activities like dodgeball tournaments and the HIKE-mile. After each kick-off, they host a Syjunta (Sewing Circle) for customizing overalls.

HI LIFE

Is responsible for organizing social events throughout the year, including sittings, HI CAPS, and other fun gatherings.

Helps international and Swedish students integrate, arranging events like waffle nights, pub crawls, and tournaments. They manage exchange and master's students during the kick-offs and coordinate study abroad points with the International Office.

Works to improve the quality of education by gathering student feedback, conducting course evaluations, and maintaining high standards. They collaborate with the School of Engineering, the Student Union, and program managers.
